**Subject:** LHCC Air Modeling Report

Hi Steve - happy new year. I've completed my review of the air modeling report and was hoping you could forward me the Word file to streamline the comment process.

Also, it appears that only split hull scows were evaluated in this modeling. We need to add an evaluation of bucket unloading as well, as this could potentially have greater impacts on air quality (provided this can be completed by, say, end of February).

Thanks - Dave
